

# EVER AI

## Solve Your Data Problems with **NO-CODE Platform**

**Train, deploy and monitor**  
your machine learning model  
in our user-friendly web apps

### **DATA PREPARATIONS**

Prepare the right data for your machine learning model!

### **MLOPS**

**(Machine Learning Operations)**

Your model is built and good to go, so what's next? Deploy and monitor their performance in one go!

### **DATA MODELING**

Why need to learn programming when with a few clicks you can build your own machine learning model?

### **DATA WAREHOUSING**

Have lots of databases and need to have a centralized and transformed one?
